

LUBBOCK, Texas (KCBD) - The State Strike Force to Reopen Texas has announced a revised protocol for bar establishments, allowing them to open at 50% capacity.

The Minimum Standards released by Governor Greg Abbott Wednesday states starting October 14, the County Judge of each county may choose to opt-in with the Texas Alcoholic Beverage Commission (TABC) to allow bars or similar establishments to operate with in-person service.

There is no occupancy limit outdoors at a bar, but indoors, locations will be limited at 50% capacity.

Dance floors at bars or nightclubs will still be closed, and staff will be designated to ensure customers maintain a 6-foot distance between groups if customers are waiting to enter the bar, and tables of no more than six people will be allowed.

Additionally, Governor Abbott stated in his announcement that businesses like amusement parks, movie theaters, zoos, aquariums, and bowling alleys can expand to 75% capacity in counties with low COVID-19 hospitalizations beginning October 14.

You can read the full list of new health and safety requirements from the state's Task Force [here](#).

The Honorable Ruth R. Hughs
Secretary of State
State Capitol Room 1E.8
Austin, Texas 78701

Dear Secretary Hughs:

Pursuant to his powers as Governor of the State of Texas, Greg Abbott has issued the following:

Executive Order No. GA-32 relating to the continued response to the COVID-19 disaster as Texas reopens.

The original executive order is attached to this letter of transmittal.

Respectfully submitted,

Executive Order

BY THE
GOVERNOR OF THE STATE OF TEXAS

Executive Department
Austin, Texas
October 7, 2020

EXECUTIVE ORDER
GA 32

Relating to the continued response to the COVID-19 disaster as Texas reopens.

WHEREAS, I, Greg Abbott, Governor of Texas, issued a disaster proclamation on March 13, 2020, certifying under Section 418.014 of the Texas Government Code that the novel coronavirus (COVID-19) poses an imminent threat of disaster for all counties in the State of Texas; and

WHEREAS, in each subsequent month effective through today, I have renewed the disaster declaration for all Texas counties; and

WHEREAS, I have issued executive orders and suspensions of Texas laws in response to COVID-19, aimed at protecting the health and safety of Texans and ensuring an effective response to this disaster; and

WHEREAS, I issued Executive Order GA-08 on March 19, 2020, mandating certain social-distancing restrictions for Texans in accordance with guidelines promulgated by President Donald J. Trump and the Centers for Disease Control and Prevention (CDC); and

WHEREAS, I issued Executive Order GA-14 on March 31, 2020, expanding the social-distancing restrictions for Texans based on guidance from health experts and the President; and

WHEREAS, I subsequently issued Executive Orders GA-16, GA-18, GA-21, GA-23, and GA-26 from April through early June 2020, aiming to achieve the least restrictive means of combatting the threat to public health by continuing certain social-distancing restrictions, while implementing a safe, strategic plan to reopen Texas; and

WHEREAS, as Texas reopens in the midst of COVID-19, increased spread is to be expected, and the key to controlling the spread and keeping Texas residents safe is for all Texans to consistently follow good hygiene and social-distancing practices, especially those set forth in the minimum standard health protocols from the Texas Department of State Health Services (DSHS); and

WHEREAS, in June 2020, Texas experienced substantial increases in COVID-19 cases and hospitalizations, necessitating targeted and temporary adjustments to the reopening plan to achieve the least restrictive means for reducing the growing spread of COVID-19 and the resulting imminent threat to public health, and to avoid a need for more extreme measures; and

WHEREAS, I therefore issued Executive Orders GA-28 and GA-29 in late June and early

FILED IN THE OFFICE OF THE
SECRETARY OF STATE
3PM O'CLOCK

OCT 07 2020

July 2020, respectively, and amended Executive Order GA-28 by proclamation on July 2, 2020; and

WHEREAS, due to improved medical treatments for COVID-19 patients, substantial increases in testing, abundant supplies of personal protective equipment, and Texans' adherence to safe practices like social distancing, hand sanitizing, and use of face coverings, the spread of COVID-19 and the number of new COVID-19 cases and hospitalizations have steadily and significantly declined since late July; and

WHEREAS, I therefore issued Executive Orders GA-30 and GA-31 on September 17, 2020, allowing additional reopening and non-essential medical surgeries and procedures in Texas, except in some areas with high hospitalizations as defined in those orders; and

WHEREAS, as Texas continues to reopen, everyone must act safely, and to that end, this executive order and prior executive orders provide that all persons should follow the health protocols from DSHS, which whenever achieved will mean compliance with the minimum standards for safely reopening, but which should not be used to fault those who act in good faith but can only substantially comply with the standards in light of scarce resources and other extenuating COVID-19 circumstances; and

WHEREAS, in the Texas Disaster Act of 1975, the legislature charged the governor with the responsibility "for meeting ... the dangers to the state and people presented by disasters" under Section 418.011 of the Texas Government Code, and expressly granted the governor broad authority to fulfill that responsibility; and

WHEREAS, under Section 418.012, the "governor may issue executive orders ... hav[ing] the force and effect of law;" and

WHEREAS, failure to comply with any executive order issued during the COVID-19 disaster is an offense punishable under Section 418.173 by a fine not to exceed \$1,000, and may be subject to regulatory enforcement;

NOW, THEREFORE, I, Greg Abbott, Governor of Texas, by virtue of the power and authority vested in me by the Constitution and laws of the State of Texas, and in accordance with guidance from the Commissioner of the Texas Department of State Health Services, Dr. John Hellerstedt, other medical advisors, the White House, and the CDC, do hereby order the following on a statewide basis effective at 12:01 a.m. on October 14, 2020:

Every business establishment in Texas shall operate at no more than 75 percent of the total listed occupancy of the establishment; provided, however, that:

- I. There is no occupancy limit for the following:
 - a. any services listed by the U.S. Department of Homeland Security's Cybersecurity and Infrastructure Security Agency (CISA) in its Guidance on the Essential Critical Infrastructure Workforce, Version 4.0 or any subsequent version;
 - b. religious services, including those conducted in churches, congregations, and houses of worship;
 - c. local government operations, including county and municipal governmental operations relating to licensing (including marriage licenses), permitting, recordation, and document-filing services, as determined by the local government;

FILED IN THE OFFICE OF THE
SECRETARY OF STATE
3 PM O'CLOCK

OCT 07 2020

- d. child-care services;
 - e. youth camps, including but not limited to those defined as such under Chapter 141 of the Texas Health and Safety Code, and including all summer camps and other daytime and overnight camps for youths;
 - f. recreational sports programs for youths and adults;
 - g. any public or private schools, and any public or private institutions of higher education, not already covered above;
 - h. drive-in concerts, movies, or similar events, under guidelines that facilitate appropriate social distancing, that generally require spectators to remain in their vehicles, and that minimize in-person contact between people who are not in the same household or vehicle; and
 - i. the following establishments that operate with at least six feet of social distancing between work stations: cosmetology salons, hair salons, barber shops, nail salons/shops, and other establishments where licensed cosmetologists or barbers practice their trade; massage establishments and other facilities where licensed massage therapists or other persons licensed or otherwise authorized to practice under Chapter 455 of the Texas Occupations Code practice their trade; and other personal-care and beauty services such as tanning salons, tattoo studios, piercing studios, hair removal services, and hair loss treatment and growth services.
2. In areas with high hospitalizations as defined below, any business establishment that otherwise would have a 75 percent occupancy or operating limit may operate at up to only 50 percent. This paragraph does not apply, however, to business establishments located in a county that has filed with DSHS, and is in compliance with, the requisite attestation form promulgated by DSHS regarding minimal cases of COVID-19.
- “Areas with high hospitalizations” means any Trauma Service Area that has had seven consecutive days in which the number of COVID-19 hospitalized patients as a percentage of total hospital capacity exceeds 15 percent, until such time as the Trauma Service Area has seven consecutive days in which the number of COVID-19 hospitalized patients as a percentage of total hospital capacity is 15 percent or less. A current list of areas with high hospitalizations will be maintained at www.dshs.texas.gov/ga3031.
3. Except as provided below by paragraph No. 5, there is no occupancy limit for outdoor areas, events, and establishments, with the exception of the following outdoor areas, events, or establishments that may operate at no more than 75 or 50 percent, as applicable, of the normal operating limits as determined by the owner:
- a. amusement parks;
 - b. water parks;
 - c. swimming pools;
 - d. museums and libraries; and
 - e. zoos, aquariums, natural caverns, and similar facilities.
4. All indoor and outdoor professional, collegiate, and similar sporting events, including rodeos and equestrian events, shall remain limited to 50 percent of the normal operating limits as determined by the owner.
5. For any outdoor gathering in excess of 10 people, including rafting, tubing, and related services, other than those set forth above in paragraph Nos. 1, 3, or 4, the gathering is prohibited unless the mayor of the city in which the gathering is held, or the county judge in the case of a gathering in an unincorporated area, approves of the gathering, and such approval can be made subject to certain conditions or restrictions not inconsistent with this executive order.

SECRETARY OF STATE
3PM O'CLOCK

OCT 07 2020

6. Restaurants that have less than 51 percent of their gross receipts from the sale of alcoholic beverages, and whose customers eat or drink only while seated, may offer dine-in services.
7. Bars or similar establishments that hold a permit from the Texas Alcoholic Beverage Commission (TABC), and are not restaurants as defined above in paragraph No. 6, may offer on-premises services only as described by this paragraph. A bar or similar establishment may offer on-premises services at up to 50 percent of the total listed occupancy of the establishment if:
 - a. the bar or similar establishment is not in an area with high hospitalizations as defined above, and the county judge of the county in which the bar or similar establishment is located files the requisite form with TABC; or
 - b. the bar or similar establishment is in an area with high hospitalizations as defined above, but is located in a county that has filed with DSHS, and is in compliance with, the requisite attestation form promulgated by DSHS regarding minimal cases of COVID-19, and the county judge of the county in which the bar or similar establishment is located also files the requisite form with TABC.

Patrons at bars or similar establishments operating under this paragraph may eat or drink only while seated, except that in an establishment that holds a permit from TABC as a brewer, distiller/rectifier, or winery, customers may sample beverages while standing so long as they are in a group of six people or fewer and there is at least six feet of social distancing or engineering controls, such as partitions, between groups.

Where applicable, this 50 percent occupancy limit applies only indoors; the limit does not apply to outdoor areas, events, or establishments, although social distancing and other protocols must be followed.

People shall not visit bars or similar establishments that are located in counties not included in parts (a) or (b) above. A current list of all counties reopening under this paragraph will be maintained on TABC's website.

The use by bars or similar establishments of drive-thru, pickup, or delivery options for food and drinks remains allowed to the extent authorized by TABC.

8. For purposes of this executive order, facilities with retractable roofs are considered indoor facilities, whether the roof is opened or closed.
9. Staff members are not included in determining operating levels, except for manufacturing services and office workers.
10. Except as provided in this executive order or in the minimum standard health protocols recommended by DSHS, found at www.dshs.texas.gov/coronavirus, people shall not be in groups larger than 10 and shall maintain six feet of social distancing from those not in their group.
11. People over the age of 65 are strongly encouraged to stay at home as much as possible; to maintain appropriate distance from any member of the household who has been out of the residence in the previous 14 days; and, if leaving the home, to implement social distancing and to practice good hygiene, environmental cleanliness, and sanitation.
12. In providing or obtaining services, every person (including individuals, businesses, and other legal entities) should use good-faith efforts and available resources to follow the minimum standard health protocols recommended by DSHS.
13. Nothing in this executive order or the DSHS minimum standards precludes requiring a customer to follow additional hygiene measures when obtaining

FILED IN THE OFFICE OF THE
SECRETARY OF STATE
3pm O'CLOCK

OCT 07 2020

services.

14. People may visit nursing homes, state supported living centers, assisted living facilities, or long-term care facilities as determined through guidance from the Texas Health and Human Services Commission (HHSC). Nursing homes, state supported living centers, assisted living facilities, and long-term care facilities should follow infection control policies and practices set forth by HHSC, including minimizing the movement of staff between facilities whenever possible.
15. Public schools may operate as provided by, and under the minimum standard health protocols found in, guidance issued by the Texas Education Agency (TEA). Private schools and institutions of higher education are encouraged to establish similar standards.

Notwithstanding anything herein to the contrary, the governor may by proclamation add to the list of establishments or venues that people shall not visit.

This executive order shall supersede any conflicting order issued by local officials in response to the COVID-19 disaster, but only to the extent that such a local order restricts services allowed by this executive order, allows gatherings prohibited by this executive order, or expands the list or scope of services as set forth in this executive order. Pursuant to Section 418.016(a) of the Texas Government Code, I hereby suspend Sections 418.1015(b) and 418.108 of the Texas Government Code, Chapter 81, Subchapter E of the Texas Health and Safety Code, and any other relevant statutes, to the extent necessary to ensure that local officials do not impose restrictions in response to the COVID-19 disaster that are inconsistent with this executive order, provided that local officials may enforce this executive order as well as local restrictions that are consistent with this executive order.

All existing state executive orders relating to COVID-19 are amended to eliminate confinement in jail as an available penalty for violating the executive orders. To the extent any order issued by local officials in response to the COVID-19 disaster would allow confinement in jail as an available penalty for violating a COVID-19-related order, that order allowing confinement in jail is superseded, and I hereby suspend all relevant laws to the extent necessary to ensure that local officials do not confine people in jail for violating any executive order or local order issued in response to the COVID-19 disaster.

This executive order supersedes Executive Order GA-30, but does not supersede Executive Orders GA-10, GA-13, GA-17, GA-24, GA-25, GA-29, or GA-31. This executive order shall remain in effect and in full force unless it is modified, amended, rescinded, or superseded by the governor. This executive order may also be amended by proclamation of the governor.

Given under my hand this the 7th
day of October, 2020.

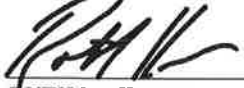

A handwritten signature in black ink that reads "Greg Abbott".

MINIMUM STANDARD HEALTH PROTOCOLS

CHECKLIST FOR BARS OR SIMILAR ESTABLISHMENTS

Effective October 14, 2020, the County Judge of each county may choose to opt in with the Texas Alcoholic Beverage Commission (TABC) to allow bars or similar establishments to operate with in-person service. Bars or similar establishments located in counties that have opted in may operate for in-person service up to 50% of the total listed occupancy inside the bar or similar establishment, but all customers must be seated while eating or drinking at the bar or similar establishment. There is no occupancy limit outdoors at a bar or similar establishment. Bar or similar establishment employees are not counted toward the occupancy limitation. For these purposes, bars or similar establishments are establishments with a permit from TABC that are not otherwise considered restaurants. All employees and customers must wear a face covering (over the nose and mouth) wherever it is not feasible to maintain 6 feet of social distancing from another individual not in the same household, except when seated at the bar or similar establishment to eat or drink.

The following are the minimum recommended health protocols for all bars or similar establishments choosing to operate in Texas. Bars or similar establishments may adopt additional protocols consistent with their specific needs and circumstances to help protect the health and safety of all employees, contractors, and customers.

The virus that causes COVID-19 can be spread to others by infected persons who have few or no symptoms. Even if an infected person is only mildly ill, the people they could spread it to may become seriously ill or even die, especially if they are 65 or older with pre-existing health conditions that place them at higher risk. Because of the concealed nature of this threat, everyone should rigorously follow the practices specified in these protocols, all of which facilitate a safe and measured reopening of Texas. The virus that causes COVID-19 is still circulating in our communities. We should continue to observe practices that protect everyone, including the most vulnerable.

Please note, public health guidance cannot anticipate or address every unique situation. Bars or similar establishments should stay informed and take actions based on common sense and wise judgment that will protect health and support economic revitalization. Bars or similar establishments should also be mindful of federal and state employment and disability laws, workplace safety standards, and accessibility standards to address the needs of both workers and customers.

Health protocols for serving your customers:

- Customers may not loiter at the bar or in commonly trafficked areas, and should remain seated at tables at the bar or similar establishment.
 - Only provide service to seated individuals, except as provided below.
 - Breweries, wineries, and distilleries may serve customers standing at a counter if the customers are sampling products from the establishment. Groups at the counter may not exceed 6 individuals, and must be separated from other groups by either 6 feet of separation or an engineering control such as a partition.
- Groups must maintain at least 6 feet of distance from other groups at all times, including while waiting to be seated in the bar or similar establishment. The 6 feet of distance between groups seated at different tables is not required if the bar or similar establishment provides engineering controls, such as a partition, between the tables.
 - A booth may be next to another booth as long as a partition is constructed between the booths, and that partition is at least 6 feet tall above ground level.
 - Tables should generally be at least 6 feet apart from any part of another table. However, a bar or similar establishment may have tables at least 4 feet apart from any part of another table, provided the bar or similar establishment uses a partition between the tables that is at least 6 feet tall and 6 feet wide.

MINIMUM STANDARD HEALTH PROTOCOLS

BARS OR SIMILAR ESTABLISHMENTS: Page 2 of 4

- As recommended by the bar and nightclub industry, keep dance floors closed. Activities that enable close human contact are discouraged.
- Pathways for patrons' ingress and egress should be clear and unobstructed.
- Designate staff to ensure customers maintain a 6-foot distance between groups if customers are waiting to enter the bar or similar establishment.
- A hand sanitizing station should be available upon entry to the establishment.
- No tables of more than 6 people.
- Dining:
 - Do not leave condiments, silverware, flatware, glassware, or other traditional table top items on an unoccupied table.
 - Provide condiments only upon request, and in single use (non-reusable) portions or in reusable containers that are cleaned and disinfected after each use.
 - Use disposable menus (new for each patron), or clean and disinfect reusable menus after each use.
 - If a buffet is offered, employees should serve the food to customers.
- Ensure spacing of individuals within the establishment to keep a 6-foot distance between individuals in different groups.**
 - Tables or chairs must be installed to seat all customers to maintain social distancing, and may not be moved.
 - Consider positioning an unoccupied table or other object adjacent to each occupied table, creating space to permanently maintain a 6-foot distance between groups.
 - Take orders from customers seated at a table or by web/phone application.
- Contactless payment is encouraged. Where not available, contact should be minimized. Both parties should wash or sanitize hands after the payment process.

Health protocols for your employees and contractors:

- Train all employees and contractors on appropriate cleaning and disinfection, hand hygiene, and respiratory etiquette.
- Screen employees and contractors before coming into the bar or similar establishment:
 - Send home any employee or contractor who has any of the following new or worsening signs or symptoms of possible COVID-19:

| | |
|---|--|
| <ul style="list-style-type: none"> - Cough - Shortness of breath or difficulty breathing - Chills - Repeated shaking with chills - Muscle pain - Headache | <ul style="list-style-type: none"> - Sore throat - Loss of taste or smell - Diarrhea - Feeling feverish or a measured temperature greater than or equal to 100.0 degrees Fahrenheit - Known close contact with a person who is lab confirmed to have COVID-19 |
|---|--|

MINIMUM STANDARD HEALTH PROTOCOLS

BARS OR SIMILAR ESTABLISHMENTS: Page 3 of 4

- Do not allow employees or contractors with the new or worsening signs or symptoms listed above to return to work until:
 - In the case of an employee or contractor who was diagnosed with COVID-19, the individual meets all three of the following criteria: at least three days (72 hours) have passed *since recovery* (resolution of fever without the use of fever-reducing medications); and the individual has *improvement* in symptoms (*e.g.*, cough, shortness of breath); and at least ten days have passed *since symptoms first appeared*; or
 - In the case of an employee or contractor who has symptoms that could be COVID-19 and does not get evaluated by a medical professional or tested for COVID-19, the individual should be assumed to have COVID-19, and the individual may not return to work until the individual has completed the same three-step criteria listed above; or
 - If the employee or contractor has symptoms that could be COVID-19 and wants to return to work before completing the above self-isolation period, the individual must obtain a medical professional's note clearing the individual for return based on an alternative diagnosis.
- Do not allow an employee or contractor with known close contact to a person who is lab-confirmed to have COVID-19 to return to work until the end of the 14-day self-quarantine period from the last date of exposure (with an exception granted for healthcare workers and critical infrastructure workers).
- Have employees and contractors wash or sanitize their hands upon entering the bar or similar establishment, and between interactions with customers.
- Have employees and contractors maintain at least 6 feet of separation from other individuals. If this distancing is not feasible, measures such as face covering, hand hygiene, cough etiquette, cleanliness, and sanitation should be rigorously practiced.

Health protocols for your facilities:

- Consider having an employee or contractor manage and control access to the bar or similar establishment, including opening doors to prevent attendees from touching door handles.
- Take steps to ensure 6 feet of social distancing is maintained at the bar or similar establishment between individual patrons, between patrons and waitstaff, and between patrons and bar items such as clean glassware and ice. Such separation may be obtained by ensuring bartenders remain at least 6 feet from customers at the bar, such as by taping off or otherwise blocking bartenders from being within 6 feet of a seated customer, or the use of engineering controls, such as dividers, to keep individuals and/or the bar separate from other individuals.**
- Regularly and frequently clean and disinfect any regularly touched surfaces, such as doorknobs, tables, and chairs.
- Regularly and frequently clean restrooms, and document the cleanings.
- Disinfect any items that customers contact.
- Make hand sanitizer, disinfecting wipes, soap and water, or similar disinfectant readily available to employees and customers.
- Consider placing [readily visible signs](#) at the bar or similar establishment to remind everyone of best hygiene practices.
- Clean and disinfect the area used by customers (*e.g.*, tables, chairs, etc.) after each group of customers depart, including the disinfecting of tables, chairs, stalls, and countertops.

MINIMUM STANDARD HEALTH PROTOCOLS

BARS OR SIMILAR ESTABLISHMENTS: Page 4 of 4

- Clean and sanitize the bar daily.
- For bars or similar establishments with more than 10 employees and/or contractors present at one time, consider having an individual wholly or partially dedicated to ensuring the health protocols adopted by the establishment are being successfully implemented and followed.
- TABC staff should monitor bars throughout the state of Texas to ensure compliance with these protocols. TABC has the authority to suspend any license that poses an immediate threat or danger to public safety. Failure to follow these protocols may result in a 30-day license suspension for the first infraction, and a 60-day suspension for a second infraction.

If you have video game equipment or other interactive amusements:

- Assign at least one employee or contractor full time to disinfect the video games and other interactive amusements. **Continuous disinfecting is needed to protect customers.**
- Disinfect all gaming equipment before and after customer use.
- Provide equipment disinfecting products throughout facility for use on equipment.
- Ensure only one player can play a game at a time.
- Provide for at least 6 feet of separation between games.

Health protocols for valet parking services:

- Take the temperature of each employee or contractor at the beginning of each shift.
- Utilize the following personal protective equipment for employees and contractors:
 - Cloth face coverings over the nose and mouth, or, if available, non-medical grade face masks over the nose and mouth
 - Single-use disposable gloves that are changed between every interaction with customers and/or vehicles
- Vehicle door handles, ignition switch, steering wheel, and shift knob should be wiped with disinfectant as the valet employee enters and exits the vehicle.
- All workstations and work equipment should be cleaned at the start and the end of each shift, as well as every hour during the shift. These workstations should include the valet podium, key storage locker, tablets, fee computers, receipt printers, etc.
- Valet parking operators should employ contactless payment whenever possible.
- For high-volume operations, appropriate physical distancing indicators should be established to ensure customers maintain at least 6 feet of distance as they wait for their vehicle.
- Where possible, alternative parking options should be provided for customers who are uncomfortable with valet parking.
- Wash or disinfect hands upon entering a business and after any interaction with employees, other customers, or items in the business.
- Make hand sanitizer, disinfecting wipes, soap and water, or similar disinfectant readily available to employees, contractors, and customers.
- Have employees and contractors maintain at least 6 feet of separation from other individuals.
